

Dear Parents,

This is a tool to assist you with “daily symptom checks” for your student. Please review/complete this short checklist each morning prior to departing for school. If your student displays any of the following symptoms or signs, please keep them home and contact the Valor attendance line 303-471-3100. Remember to report your students' symptoms as accurately as possible.

Daily Symptom Checker

(Adapted from the Centers for Disease Control and Prevention)

SECTION 1: Symptoms/Signs

Please check your child for any of the following symptoms -- including possible illness that may decrease the student’s ability to learn and also put them at risk for spreading illness to others:

- Temperature 100.4 degrees Fahrenheit or higher when taken by mouth.
- Sore throat.
- New and uncontrolled cough that causes difficulty breathing Note: For students with chronic allergic/asthmatic cough, this would be a change in their cough from baseline.
- Diarrhea, vomiting, or abdominal pain.
- New onset of severe headache, especially with a fever.

SECTION 2: Close Contact/Potential Exposure

- Had close contact (within 6 feet of an infected person for at least 15 minutes) with a person who has contracted and confirmed positive for COVID-19.
- Traveled to or lived in an area where the local, tribal, territorial, or state health department is reporting large numbers of COVID-19 cases as described in the [Community Mitigation Framework](#).
- Live in areas of high community transmission (as described in the [Community Mitigation Framework](#)) while the school remains open.
